# Helping you meet classroom challenges

In a classroom filled with individuals with varying abilities and learning styles, the right resources can provide teachers with a way to engage their pupils effectively. The daily challenges of the classroom and how to meet those challenges are behind each and every one of our resources.

Whether it is using the latest format or sticking with the tried and tested, our focus is on providing resources that are practical and easy to use.

With writers who have classroom experience, their insight becomes the foundation of our bestselling, curriculum-linked materials. Set yourself up today to introduce, practise and consolidate key learning areas with our educational resources

# Which edition should I get?

Our extensive range of educational resources cater for the different curricula of England, Scotland, Wales and Northern Ireland. With each product, we have set the suggested age level that would be appropriate for your pupils. However, some teachers might choose to level up or down depending on the classroom they're working with. Easily preview any books on our website to make sure you're purchasing the right edition.

# English

# Building essential skills for high achievers

The demands on teachers are immense and individual teaching styles vary, but essential English skills remain constant. A core aspect of education, English is immersed in all learning areas and is a high priority in every classroom. We endeavour to meet the English needs of teachers by providing extensive, high-quality resources suitable for any teacher. The use of similar formats in each resource allows you to get straight to teaching, ensuring your focus is where it needs to be—with your pupils.

Throughout our considerable range of English resources, all content is aimed at engaging pupils and encouraging them to look at English in a different way. By exposing them to a wider range of skills, and with appropriate levels of content to consolidate, challenge and extend, they will learn to develop an appreciation of language and literature.

# The English Skills Box

Help your pupils master English skills.

» Three-box series

» Suitable for Years 1 to 6

» 75 full-colour cards in 15 sets

The English Skills Box provides opportunities for pupils to read an exciting range of graded texts to support, match or challenge their needs and to creatively apply their skills and knowledge of English comprehension, vocabulary, spelling, grammar and punctuation.

## Sample card from Box 3

**Comprehension**

1. What is the poem from a Railway Carriage about?

2. What else do you think could have been included in the poem From a Railway Carriage?

3. What do you think these poems were written?

4. In From a Railway Carriage, what does the phrase 'each glimpse and gone forever' tell you about how the poet feels about railway journeys?

5. In The Light Keeper, where are the 'waves crashing'?

6. Which phrase is closest in meaning to 'glimpse'?

**Vocabulary**

1. Which phrase is closest in meaning to 'glimpse'?

2. Which phrase is closest in meaning to 'glimpse'?

3. Which phrase is closest in meaning to 'glimpse'?

4. Which phrase is closest in meaning to 'glimpse'?

5. Which phrase is closest in meaning to 'glimpse'?

6. Which phrase is closest in meaning to 'glimpse'?

**Spelling**

1. Choose the correct spelling of the missing word.

2. Choose the correct spelling to match the meaning.

3. Which letter string completes the word?

4. Adding a suffix to a noun can change the word to an adjective. Spell the adjective created when a suffix is added to the noun flame.

5. Choose the correct spelling of the missing word.

**Grammar**

1. What is the grammatical term for the underlined word?

2. Which noun does the possessive pronoun 'its' refer back to?

3. Identify the relative pronoun.

4. The prefix 're-' can be added to the root word painted to make the word repainted. What does the word repainted mean?

5. Which is the relative clause in the sentence?

6. Which subordinating conjunction can be added to show the child ate brambles and watched the trains at the same time?

7. Which are the two prepositions in this verse?

8. Which is the correct use of an apostrophe to show plural possession?

9. Which sentence uses brackets for parentheses correctly?

**Punctuation**

1. Which is the correct use of an apostrophe to show plural possession?

2. Which sentence uses brackets for parentheses correctly?

**Challenge**

1. Children like the rhyming couplets in both poems.

2. Bonus Task

**Poems by Robert Louis Stevenson**

**From a Railway Carriage**

Faster than horses, faster than witches,  
Bridges and houses, hedges and ditches;  
And charging along like troops in a battle,  
All through the meadows the horses and cattle:  
All of the sights of the hill and the plain  
Fly as thick as driving rain,  
And ever again, in the wink of an eye,  
Painted stations whistle by.  
Here is a child who climbs and scrambles,  
All by himself and gathering brambles;  
Here is a tramp who stands and gazes,  
And there is the green for driving the daisies!  
Here is a cart run away in the road,  
Lumping along with man and load,  
And here is a mill and there is a river;  
Each a glimpse and gone for ever!

Robert Louis Stevenson

**The Light Keeper**

The brilliant kernel of the night,  
The burning lightroom circles me;  
I sit within a blaze of light  
Hold high above the dusky sea.  
Far off the surf dash break and roar  
Along bleak miles of moorland shore,  
Where through the tides the tumbling wave  
Falls in an avalanche of foam  
And drives its churned waters home  
Up many an underoff and cave.

Robert Louis Stevenson

## Features

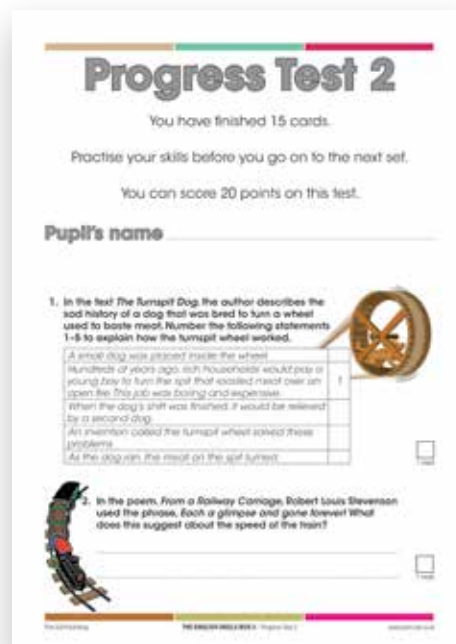

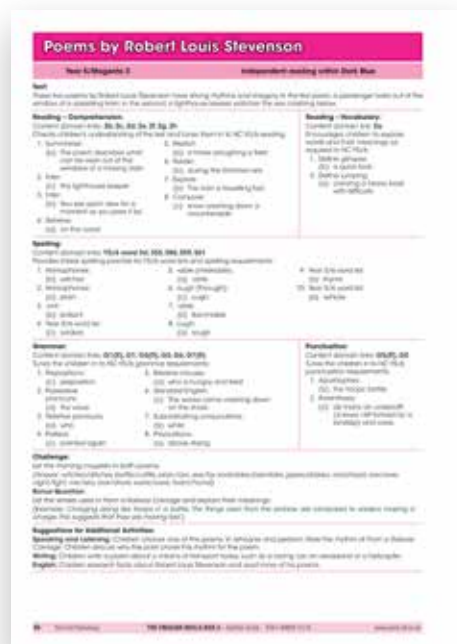

- Careful grading and steady skills progression mean the cards may be used in whole-class teaching, small guided reading groups or independently by the pupils.
- Follow-up, skills-focused activities link to the statutory English national curriculum requirements and the content domains for reading, spelling, punctuation and grammar, as featured in national tests (SATs).
- Allows pupils to apply their English language skills across a wide range of fiction and non-fiction text types.

# New Wave English in Practice

Perfect English skills through fun daily practice.

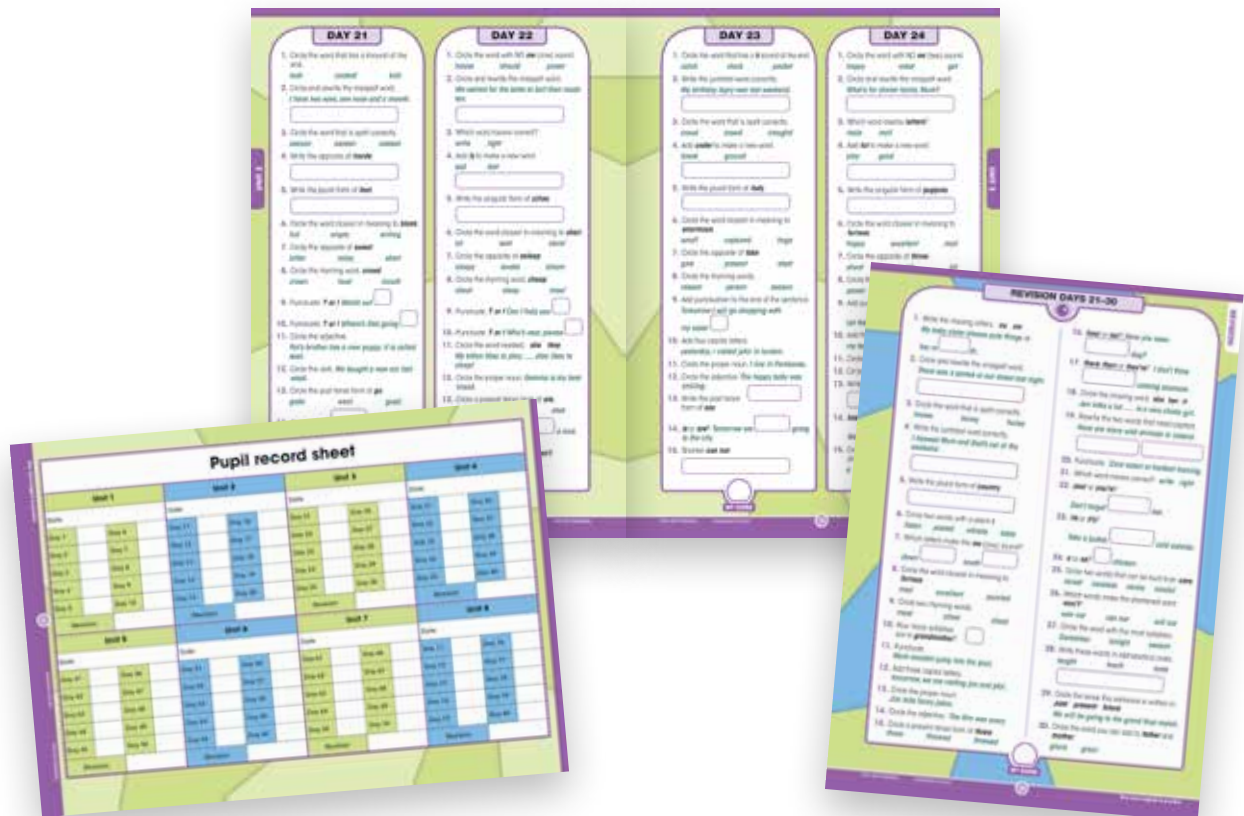

» Teacher Manual also available

» 15 units of work, divided into 10 days per unit

» Opportunities for pupil and teacher assessment

*New Wave English in Practice* provides daily practice in the core literacy components of spelling, word study, punctuation and grammar. The content targets a wide range of English language structures and concepts within these areas. Teachers will welcome the focus on the common problem areas of the English language. Like their maths counterparts *New Wave Mental Maths*, these books recognise, and take full advantage of, the value of incidental teaching and learning.

# The Literacy Box

Take your pupils on a literary adventure!

» Three-box series

» Suitable for Years 2 to 6

» 75 four-page literacy cards

*The Literacy Box* covers all your teaching needs. These colourfully-illustrated cards, featuring texts covering a variety of genres and text types, literacy will become less of a chore and more of a fun learning adventure for pupils. *The Literacy Box* series provides supplementary materials to support the reading programme of teachers, catering for the needs of all readers at each level in the classroom.

## Sample card from Box 1

**Comprehension**

✖ The word *whole* in Paragraph 3 means:

- all of it
- an opening in the ground
- large

✖ Which two characters come to the house after the cat in the hat?

- Sally and her brother
- Thing One and Thing Two
- their pet fish

✖ Who is the author of the book?

- Sally
- The cat in the hat
- Dr Seuss

✖ Which paragraph is mainly about the pictures?

- Paragraph 4
- Paragraph 3
- Paragraph 2

✖ The word *He* in Paragraph 7 means:

- Dr Seuss
- the books
- the words

✖ This writer wants you to:

- read the book
- learn about cats
- smile

**All about words**

1 Which word means clever or funny things a person does?

- nicks
- words
- colours

2 A word that rhymes with cat and hat is:

- net
- chat
- tail

3 Which word has the same sound as read, clean and leaves?

- leaves
- read
- cat

**Red 4**

**Grammar**

1 Which one should not have a capital letter when it is in the middle of a sentence?

- Children
- Thing Two
- Mum

2 Which one needs an exclamation mark?

- They had nothing to do
- You should read them all
- Are the pictures funny?

3 Which word is a noun, like story? (He tells the story.)

- The pictures are funny too.
- pictures
- are
- funny

4 Which adjectives tell more about the book?

I think this is a clever, funny book.

- it, book
- think, this
- clever, funny

5 Which word is a verb, like brings? (The cat brings two friends.)

The pictures make it easy.

- pictures
- make
- easy

**Something extra**

★ Read *The cat in the hat* or another book written by Dr Seuss.

★ Draw a character from *The cat in the hat*. Write his or her name on the picture.

**THE CAT IN THE HAT**

1. The cat in the hat is the best book! It is great fun to read. You should read it!

2. Lots of children learn to read with this book. The lines are short. The words are easy. The same words are used over and over. They make a good story.

3. Many words have the same sounds of the end. The whole book is like a very long poem. It is very clever.

4. The pictures are funny too. There are not many colours on them. It makes it easy to see the pictures.

5. The story is about two children. One is called Sally. Her brother tells the story. Mum has gone out. They are home alone. It is raining and they have nothing to do. A cat wearing a big hat comes in. He does tricks for the children. He makes a big mess in the house. The family pet fish does not like the cat.

6. The cat brings two friends—Thing One and Thing Two. They fly a kite in the house. They make a mess. The children catch Thing One and Thing Two with a net. Then they make the cat clean up the mess. He leaves just before Mum comes home.

7. Dr Seuss made up some of the words for this book. He made up words for his other books too. You should read them all. You will love them as well!

# Teacher's Moderation Toolkit

For a free sample, go to:  
[www.prim-ed.co.uk/tmts/sample](http://www.prim-ed.co.uk/tmts/sample)

## The essential teacher support tool for writing.

- » Three-book series—UKS2, LKS2 and KS1
- » For Years 1 to 6
- » Judgement criteria based on the National Curriculum

The *Teacher's Moderation Toolkit* is designed to support accurate teacher assessment of writing for Years 1 to 6. Use it to standardise and benchmark pupils' writing at three termly intervals, as a CPD resource to support teachers working together to make judgements or as a classroom resource to share the expected standards of writing with children.

### Features

- Can be used in a variety of ways to support accurate teacher assessment of writing for Years 1 to 6.
- Provides teachers with collections of children's writing to assess together as a staff. Staff can then benchmark and standardise their own pupils' writing using this toolkit.
- Will be a valued benchmark for teachers, and will also assist in developing their skills for analysing writing.

### Sample pages from Years 5 and 6

Sample of Annotated Piece of Writing

Sample of Unannotated Piece of Writing

Sample of Children's Writing

	AGE	CODE	PRICE

# English Back to Basics

## An English activity for every week of the year.

This photocopiable series provides an activity for every week of the academic year. A variety of activities each focus on one area of essential skills: spelling, word study, punctuation, grammar and phonics (Books A–C only).

### Features

- Saves time and stress—can be used for homework, classwork, teaching a new concept, revision and assessment.
- Encourages independent learning through simple and easy-to-understand instructions.
- Teacher notes including curriculum links, spelling rules, word building, prefixes, suffixes, word origins and spelling lists.

	AGE	CODE	PRICE
Book A	5–6	6311	£17.95
Book B	6–7	6312	£17.95
Book C	7–8	6313	£17.95
Book D	8–9	6314	£17.95

Book F	10–11	6316	£17.95
Book G	11+	6317	£17.95

## The English Workbook

## Develop your pupils' literacy skills.

The English Workbook series has seven pupil workbooks which look at writing formats such as procedures, recounts, expositions, narratives and reports. The series offers analysis and activities based on these formats.

### Features

- Individual development of writing, speaking and listening skills through strategies.
- Procedural learning profiles for each specific writing skill pupils are learning.
- Language-specific features of each text covered, showing when to use certain forms of language and text.

	AGE	CODE	PRICE

# The Comprehension Strategies Box

COMING FEBRUARY '21

Unlock pupils' reading abilities.

» Six-box series

» Suitable for pupils aged 5–11+

» 81 engaging stories on cards and within the teacher guide

*The Comprehension Strategies Box* is a set of six boxes suitable for children aged 5–11+. Each box contains a set of full-colour, differentiated literacy cards designed to support the teaching and learning of nine different comprehension strategies. These well-researched and proven strategies—predicting, visualising, making connections, questioning, clarifying, summarising, determining importance, inferring and synthesising—are compiled to help teachers unlock their pupils' reading abilities.

## Features

- Each box contains 162 cards, colour-coded by strategy, with six copies of each unique card, which are perfect for small groups or for independent pupil work.
- Cater for all pupils while learning the same strategies, with three differentiated reading levels by suggested Lexile ranges for each strategy, and two original texts on each card for each level.
- Extensive support through a comprehensive teacher guide and an additional activity book with resource sheets for all texts on the cards.

## Sample card from Box 1

Predicting 1B

### The Wolf and the Crane

Back of card

Predicting 1A

Wolf was greedy. Wolf ate his food. He had a big bone in his throat. It would not move. He could not get the bone out.

Wolf saw Crane. Crane had a long neck. Wolf wanted to get the bone out.

'Get the bone out!' said Wolf.

'I will give you a gift!' said Wolf.

Crane did not want to. Wolf had a greedy. Wolf opened his mouth to get the bone out. Wolf walked away.

'I want my gift!' said Crane.

'I did not bite you. That is your gift!' said Wolf.

Crane was not happy. Wolf was greedy.

### Things That Fly

Birds fly. Wings grew.

Bats fly. Night is new.

Planes fly. They have a crew.

Bees fly. They see the dew.

Brooms fly. Witches do too.

Ducks fly. They quack at you.

Seeds fly. Flowers are few.

Clouds fly. The sky is grey and blue.

Butterflies fly. Caterpillars chew.

Balloons fly. What a view!

Jets fly. They are fast and true.

Flags fly. The wind blew.

Rockets fly. Smoke grew.

Ghosts fly. They say 'boo'!

Pigeons fly. They coo.

Kites fly. The string needs glue.

Mum is mad. The shoes flew.

Why did she throw them? I do not know. I like to fly. What do you do?

## Sample pages from Box 1 Teacher Guide—Summarising Strategy

### Modelling Text

**Summarising** **Modelling Text**

### Dear Mr Colour Wheel

**SPEAKER:** Welcome, dear Mr Colour Wheel. We're pleased to speak to you today. People want to know all about you.

**MR COLOUR WHEEL:** Thank you. I'm very glad to answer your questions. I don't know what people want to know. I'm a very simple fellow.

**SPEAKER:** Please tell us what you do.

**MR COLOUR WHEEL:** I'm the circle that shows the important colours people need. The colours are yellow, blue and red. We use them to make all other colours.

**SPEAKER:** What do you mean?

**MR COLOUR WHEEL:** Mix yellow and blue and you get green. Mix blue and red and you get purple. Mix red and yellow and you get orange.

**SPEAKER:** Very clever! People can't use colours without you.

**MR COLOUR WHEEL:** Of course not! But don't ask about black or white! They're real impostors! No colour at all!

### Sharing Text

**Summarising** **Sharing Text**

### The Blue Flamingo

The Blue Flamingo is a good book. Les Drake wrote it. Tim Clares drew the pictures.

The book is about Bluey. Bluey is a flamingo. Most flamingos are pink. They are pink because they eat pink shrimps. Bluey is not pink. Bluey is blue. He is very sad. He does not want to be blue. Bluey tries to find out why he is not like the other flamingos. He does some funny things. He meets some funny characters. Then he finds out it is okay to be different. It is okay to be who you are.

The writer makes funny things happen. He writes about funny animals. He teaches about some good things.

The pictures are funny and colourful. They are like a cartoon.

I liked The Blue Flamingo. I think you will like it too.

### Assessment Text

**Summarising** **Assessment Text**

### Not a Great Colour!

Yesterday, we went to the beach. Mum carried the towels. Dad carried the food. Joey carried the beach umbrella. Seb carried the ball. I carried the buckets and spades.

We found a good spot. It was close to the water. There weren't too many other people to crowd us.

We swam and built sandcastles. We played games with the ball and ate the food. We stayed all day.

When we got home, we were really tired. We washed our buckets, spades and ball. Then we put them in the garden to dry.

Soon it was my turn to shower. When I was dry, I spied my face and shoulders in the mirror. What a shock! Red is not a great colour! It was starting to hurt.

That's when I realised that no-one had carried the sunscreen.

## Sample card from Box 1

**Summarising** **2A**

### The Ballad of Brown Cow

Brown Cow was a fussy sort.  
 He loved his hide. He truly did.  
 'I must keep it brown!' he thought.  
 He had some ideas jumbled in his head.

Brown Cow was a fussy sort.  
 He loved his hide. He truly did.  
 He drank chocolate milk when he went to town.  
 He painted his hide brown. He let it dry.  
 He ate hay all day. It was always brown.  
 He rolled in mud when rain fell from the sky.

Brown Cow was a fussy sort.  
 He loved his hide. He truly did.  
 The others thought him very strange.  
 They didn't do things that were odd or weird.  
 You are what you are. You cannot change.  
 'We're glad to be what we are!' they cheered.

BUT ...  
 Brown Cow was a fussy sort.  
 He loved his hide. He truly did.

**Summarising** **3A**

### Colour-changing Chameleons

Chameleons are lizards. Chameleons have clever skin that can change colour. Their skin can make patterns of many colours. They can change the colour of their skin to hide from enemies. They show dark colours when they are angry or trying to attract. Male chameleons show colours to attract females. They change to black to help them stay warm. They also change to keep cool.

Chameleons have large, bulging eyes that can rotate. This allows them to see in two directions at one time. They can see insects metres away. They also have very long tongues that they can use very quickly to catch insects. Colour-changing chameleons are very interesting!

# The Comprehension Box

Help your pupils become better readers.

» Three-box series

» Suitable for Years 1 to 6

» Great for independent learning and guided reading

The *Comprehension Box* is a series of three boxes that provide supplementary materials to support the reading programme of teachers, catering for the needs of capable, independent readers at each level in the classroom. Each *Comprehension Box* incorporates three levels of comprehension question cards in a multiple-choice format and assesses the 12 different comprehension strategies. They are easy to use for any level, so jump right in and make a difference with your pupils today.

## Samples from Box 2

Back of card

- Questions**
1. Which word in Paragraph 2 means enjoys hurting others?
- (a) bad-tempered (b) malicious (c) fearsome
2. In Paragraph 2, it means:
- (a) waste (b) his temper (c) Nightfire
3. Which word in Paragraph 7 tells us Florian's whip crumbled into tiny bits?
- (a) fireball (b) disintegrated (c) shot
4. The 'huge piles of steaming waste' would be most:
- (a) leftovers (b) droppings (c) fresh meat
5. Nightfire shot a fireball at Florian:
- (a) before (b) after (c) just as
6. Which paragraph describes the way Florian treated Nightfire?
- (a) Paragraph 4 (b) Paragraph 2 (c) Paragraph 3
7. Becoming a dragonrider is:
- (a) popular (b) hard work (c) great fun
8. Nightfire attacked Florian to protect Ryan because:
- (a) Ryan was going to be a gold rider (b) Nightfire liked kind and respectful Ryan more than cruel Florian (c) Florian ran away
9. Ryan and Nightfire both:
- (a) wore gold (b) disliked Florian (c) liked flying
10. What is the moral of the story?
- (a) Kindness is more powerful than cruelty (b) Nasty people get burnt (c) The best way to control dragons is to be kind

Front of card

**Dragonrider**

1. Ryan had wanted to be a dragonrider since he'd first seen a magnificent red dragon flying over his village when he was just one year old. Back then, he hadn't known how hard it was to become one of these legendary riders. Now, as he entered his second year of ten years of training, he knew exactly how hard it was.

2. Each trainee rider was assigned to work for one rider and dragon. Trainees woke early and worked hard until dusk. Ryan had been assigned to Florian, a fearsome gold rider with a bad-tempered gold dragon named Nightfire. It was hard working for Florian, a malicious man who enjoyed using his whip to control trainees and dragons.

3. Ryan dragged the bucket of small animals he'd caught yesterday to Nightfire's pen. Nightfire had a big appetite, which meant Ryan had to catch a lot of animals ... and clean up huge piles of steaming waste. Ryan didn't mind. Despite Nightfire's temper, Ryan respected the majestic dragon and treated it with kindness.

4. 'Greetings, Nightfire', said Ryan as he entered the pen. Instead of tipping the meat on the floor like other trainees, Ryan threw each piece for Nightfire to catch. Nightfire seemed to enjoy this game as it snapped the meat in its strong jaws. Ryan chatted away as he started cleaning the pen, hoping Nightfire wouldn't send any fireballs his way.

5. He was still chatting when Florian burst into the pen, scowling.

6. 'Why isn't Nightfire saddled?' he yelled, whip in his hand. 'I told you I was flying today! It seems my whip needs to teach you yet another lesson!' Florian raised his whip to strike Ryan.

7. A burst of fire shot across the pen. Florian screamed as the fireball disintegrated his whip and burnt his hand. Nightfire roared and shot another fireball towards Florian, who ran from the pen. He knew what this meant. Nightfire had chosen a new master.

8. Nightfire lowered its head in front of Ryan and snorted softly. Ryan touched the golden head, then climbed up onto the strong neck. Nightfire leapt into the air, and Ryan realised that kindness was far more powerful than cruelty.

**Sapphire 10**

**Dragonrider**

**Answers**

- (b) malicious
- (c) Nightfire
- (b) disintegrated
- (b) droppings
- (a) before
- (b) Paragraph 2
- (b) hard work
- (b) Nightfire liked kind and respectful Ryan more than cruel Florian
- (b) disliked Florian
- (a) Kindness is more powerful than cruelty

Answer card

# The Comprehension Box

For a free sample, go to:  
[www.prim-ed.co.uk/compboxsample](http://www.prim-ed.co.uk/compboxsample)

## Features

- 150 brilliantly-illustrated, colour cards in each box, covering a variety of genres and text types.
- Levelling guides and assessment sheets to track pupils' progress.
- Clear classification through colour-coding, with 15 levels of difficulty within each box, colour-coded for ease of use.

## Samples from Box 2

**Card explanation**

**Front**

The coloured tabs at the top of the card indicate the different sections. There are ten cards the same colour in each section. This ensures that all cards can be returned to the box in the correct order.

The cards are numbered from 1 to 10 in each section. All cards should be returned to the correct coloured section and placed in the correct numerical order.

Each card has an interesting or fun title which may or may not tell exactly what the card is about. It motivates the pupils to read on to find out more.

Each text is written in numbered paragraphs and/or steps so information can be readily located when answering the questions. Texts which are procedures will have numbered steps or instructions.

**Scarlet 1**

**Why is the sky so high?**

1. Long ago, there was an area of the world where the sky was low. It was so low that if you climbed a ladder and stretched up really high, you could touch it.

2. In that area of the world there was a village where a little old woman lived. It is much fun with a little roof the children around her house at day—swinging, clanging, swinging and clanging.

3. One day, hot summer, the village and the land around it were affected by drought. The old woman lived in the house and she was very angry. She thought the sky was too low and she wanted it to be higher. She decided to try and make it higher.

4. The little old woman tried to keep her tiny hat clean. She swept inside and outside. She swept the roof and the front yard. The dust rose as she swept and made the sky lower. It seemed as though it should be higher, scaring all the people. They ran inside their hats and hats. But the old woman continued sweeping. The sky lowered again and it seems began to rain. Large drops of rain fell onto the sky and below. Soon the old woman had muddy steps at her front door. She became angry but the sky kept dropping rain and making more mud.

5. Finally the old woman was so angry that she grabbed her broom, stretched up high and whacked the sky with it over and over again. The jolt of the sky to stop making mud around her clean house.

6. The sky didn't like being whacked with the broom or hearing the old woman's angry words. It flew up higher and higher until it was out of reach. The sky promised never to come close to the land again.

7. To this day the sky has kept its promise. It is so high, out of reach (or beyond).

Colourful artwork supports the text. The artwork may be diagrams, drawings, cartoons or photographs to motivate pupils, add interest to the topic or a comprehension.

## Teacher Guide

**Pupil answer recording sheet (see page 18)**

**Pupils record:**

- their name
- the card colour
- the card number
- and write the appropriate answer (10, 20 or 30) for each question. Both the short and full answers are provided on the answer cards.

Pupils indicate in the right-hand column, using a cross or a tick, whether the answer is correct or incorrect.

At the bottom of the recording sheet, pupils write the number of correct answers they scored.

Teachers may photocopy a number of recording pages and staple them together to form a pad. This information can then be used to complete the teacher tracking sheets.

**Pupil tracking sheet (see page 19)**

The pupil tracking sheet allows the pupil to monitor his/her own progress through the cards in the box.

Pupils record each card as it is completed. Generally speaking, it will not be practicable to complete the cards in the exact order. In this case, pupils should colour or tick the card completed and go forwards or backwards to the next available card.

**REVIEW** 'We have purchased all the boxes to use as part of our guided reading sessions. The children love the variety of texts and the multiple-choice questions!'

**Kate Will, Teacher**

	AGE	CODE	PRICE

# Comprehension Through Cloze

For a free sample, go to:  
[www.prim-ed.co.uk/compthroughclozesample](http://www.prim-ed.co.uk/compthroughclozesample)

Develop  
comprehension skills  
through imagination  
and illustration.

- » Six-book series
- » Suitable for Years 1 to 6
- » Covers the nine comprehension strategies

*Comprehension Through Cloze* aims to develop pupils' comprehension using high-interest, engaging and challenging activities. Each unit develops comprehension through three approaches: a reading passage with an incomplete illustration; a cloze passage based on the illustration; and two focus pages on a specific comprehension strategy.

## Features

- Activities encourage greater sensitivity to detail as pupils must identify missing details in illustration and text.
- Original stories from a variety of genres.
- Assists to extend vocabulary by encouraging pupils to choose new and different words to complete a story.

## Sample pages from Book 4

Book 6	10-11	8487UK	£17.95

# Teaching Comprehension Strategies

For a free sample, go to:  
[www.prim-ed.co.uk/teachingcompsample](http://www.prim-ed.co.uk/teachingcompsample)

Use the metacognitive approach to teach comprehension.

- » Seven-book series
- » Suitable for Foundation to Year 6
- » Includes background notes and information for each strategy

*Teaching Comprehension Strategies* is designed to methodically and creatively teach pupils the skills and strategies needed for effective comprehension. These strategies have been defined as understanding words, finding information, identifying the main idea, sequencing, comparing, predicting, concluding, summarising, inferring, cause and effect, fact or opinion, and point of view.

## Features

- Original and varied texts, customised to suit the strategy being highlighted.
- Skills and strategies taught using explicitly modelled examples and activities.
- Assessment activities where pupils can apply the comprehension strategies that have been taught to answer problems.

## Sample pages from Book C

	AGE	CODE	PRICE

Book G	11+	6302	£17.95

# Reading Comprehension and Word Reading

For a free sample, go to:  
[www.prim-ed.co.uk/readingcompsample](http://www.prim-ed.co.uk/readingcompsample)

Teach and assess for curriculum success.

» Six-book series

» 18 six-page units of work in each book

» Detailed lesson plans for each unit

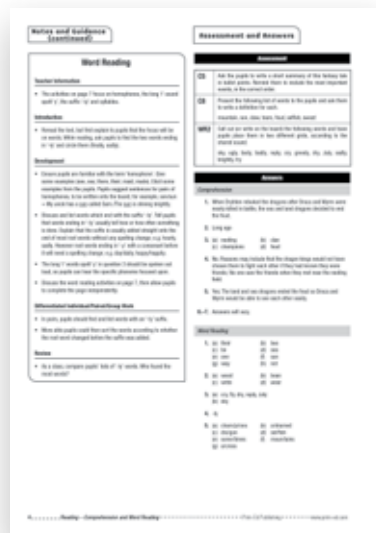

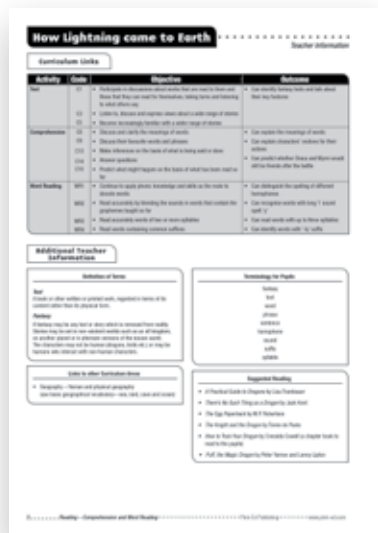

*Reading Comprehension and Word Reading* is a comprehensive resource written to help teachers understand and determine whether pupils are working towards, meeting or exceeding curriculum expectations.

## Features

- Easily assess and track progress with three summative assessments in each book and formative assessment activities built into each unit.
- Support for the teacher with guidance on assessing pupil performance within three categories.
- Encourages pupils to reflect on their own learning and progress through self-assessment.

Year 4	8-9	2978UK	£17.95
Year 5	9-10	2979UK	£17.95
Year 6	10-11	2980UK	£17.95

# Primary Comprehension

For a free sample, go to:  
[www.prim-ed.co.uk/primarycompsample](http://www.prim-ed.co.uk/primarycompsample)

Comprehension practice pupils will love.

» Seven-book series

» Suitable for Years 1 to 6 (plus Extension)

» Includes curriculum links

Full of funny, suspenseful, horrifying and exciting texts, *Primary Comprehension* is an educational adventure! With a wide array of literal, inferential and applied comprehension questions, this seven-book series is essential for every teacher's collection.

## Features

- Each book contains 20 different texts from a variety of genres including humour, fantasy, legend, journals, reports and much more.
- Three levels of questioning—literal, inferential and applied—to assess pupils' comprehension.
- Nine specific strategies covered in each book: predicting, making connections, comparing, sensory imaging, determining importance, skimming, scanning, synthesising and summarising.

## Sample pages from Book C

### THE ANT AND THE DOVE – 1

Read the fable.

One hot day, a little ant was crawling along a river bank. "How nice and cool the water looks," she thought to herself. "I think I'll take a drink." The thirty ant crawled down to the edge of the river. As he began to drink, he fell slipped on a wet rock and he fell in. The water began to sweep him away.

"Oh, somebody please help me," the little ant cried out, "or I will surely drown!"

A dove, who was perched on a branch overhanging the river, saw that the ant was in danger.

"I can help her," she thought. "If I drop a leaf into the water, the ant can climb onto it. It will be like a little boat."

So the dove dropped the leaf close to the ant and called out what to do. The ant climbed onto the leaf and soon floated safely to the shore.

"Thank you, kind dove," said the little ant. "You have saved my life. I hope I can help you one day."

A few days later, a hunter came by looking for birds to catch. He saw the dove resting on a branch and began to get out his net. However, the little ant had seen what the hunter was up to. He raced up to the hunter and bit him on the leg. The hunter yelled in pain. The dove heard the noise and flew away to safety. The hunter picked up his net and walked on.

"Thank you, little ant," cried the dove. "You did help me after all."

### THE ANT AND THE DOVE – 2

Use the text on page 11 to answer the questions.

**1. Right there**

(a) Why did the little ant fall in the river?

(b) Use the numbers 1 to 6 to show the order of each event in the fable.

☐ A hunter got out a net to catch the dove.

☐ The ant fell in the river.

☐ The dove noticed the ant was in danger.

☐ The ant bit the hunter on the leg.

☐ The dove flew away to safety.

☐ The dove dropped a leaf in the water.

**2. Think and search**

Use a dictionary to help you match each word to its meaning.

(a) perched • cried out loudly

(b) thirsty • settled or resting on something

(c) yelled • to die from being underwater too long

(d) down • needing a drink

**3. On my own**

The story of the ant and the dove is a fable. A fable is a story with a moral lesson. What do you think the moral of this story is?

If you are good to others, they will be good to you. ☐

Always use a boat on a river. ☐

### THE ANT AND THE DOVE – 3

Use the text on page 11 to complete the activities.

**1** Explain how the dove helped the ant from possibly being drowned.

**2** List two other ways the dove could have helped the ant.

**3** Choose one of your answers to Question 2 to change part of the fable of The ant and the dove. Use your own words to fill in the missing lines. Draw a picture in the space below to illustrate how the dove helped the ant in your story.

... "Oh, somebody please help me," the little ant cried out, "or I will surely drown!" A dove, who was perched on a branch overhanging the river, saw that the ant was in danger.

"I can help her," she thought. "If I

So the dove \_\_\_\_\_

### THE ANT AND THE DOVE

**Teacher information**

**Genre:** Fable

**Question types and comprehension strategies:**

- analyse and extract information from a text to answer direct, inference and evaluation questions
- scan text to determine the order of events
- draw connections between text and teacher given responses to other words in a text

**Worksheet information:**

Pupils could work in pairs or this part in a class discussion to suggest other ways the dove could have helped the ant other than dropping a leaf or page 11. After completion, pupils could read their chosen version from the fable in a small group or display the ideas to read and compare.

**Answers:**

Page 11-12

- (a) (b) (c) (d) (e) (f) (g) (h) (i) (j) (k) (l) (m) (n) (o) (p) (q) (r) (s) (t) (u) (v) (w) (x) (y) (z)

Page 13

1-5. Teacher check

**Extension:**

The ant and the dove is one of many of Aesop's fables. Other fables include the wolf and the lamb, the boy and the well, the lion and the mouse, the hare and the tortoise, the ant and the grasshopper, the ant and the dove.

	AGE	CODE	PRICE

Book E	9-10	6257	£17.95
Book F	10-11	6258	£17.95
Book G	11+	6259	£17.95

## Differentiated Cloze

	AGE	CODE	PRICE
Lower	5–7	2047UK	£14.95
Middle	7–9	2048UK	£14.95
Upper	9–11+	2049UK	£14.95

### Effective techniques to develop reading and comprehension skills.

*Differentiated Cloze* helps improve reading comprehension skills. It features a variety of fiction and non-fiction passages along with differentiated cloze activities, plus application for special needs.

#### Features

- Wide range of cross-curricular topics covered in texts.
- Suitable for English language curricular requirements.
- Each cloze passage presented in two ways—with and without missing words listed.

## Cloze in on Language

	AGE	CODE	PRICE
Lower	5–7	0251	£17.95
Middle	8–10	0252	£17.95
Upper	10–11	0253	£17.95
EXT	11+	0126	£17.95

### Challenging literacy package for the whole school.

*Cloze in on Language* is a fun and easy-to-use but challenging English language package. Based on a cloze format, each topic contains cloze text followed by detailed comprehension, word study and creative activities.

#### Features

- High-interest fiction and non-fiction texts.
- Suitable for children with a reading age of 7–12 years.
- Teacher information page and answers included.

## TEACHING TIPS

» Did you know that *National Poetry Day* is held every October? Here are some activities to help you celebrate poets and their craft in your classroom:

- Provide children with a list of 8–12 words. Challenge them to write a poem that uses as many of these words as possible.
- Ask children to choose a favourite poem and illustrate it. Display the illustrations and have a gallery walk. Children can read their poems aloud as the class look at their illustrations.
- Set up a poetry corner in your classroom which has books and display poems. Encourage children to choose a favourite poem of the week for display.

## Contemporary Cloze

	AGE	CODE	PRICE
Lower	5–7	0661UK	£14.95
Middle	7–9	0662UK	£14.95
Upper	9–11+	0663UK	£14.95

### Cloze with high-interest topics.

Cover a wide range of contemporary topics and deliver the cloze teaching strategy to assist your pupils develop their comprehension skills.

#### Features

- Features high-interest, contemporary topics such as mobile phones, bullying and the Harry Potter phenomenon.
- Presents reading strategies that allow pupils to choose a word from a list by using context clues or provide their own words.
- Includes activities that help promote written expression and expand vocabulary.

## Prime-time Comprehension

	AGE	CODE	PRICE
Lower	5–7	6324	£17.95
Middle	7–9	6325	£17.95
Upper	9–11+	6326	£17.95

### Develop comprehension skills through entertaining texts.

*Prime-time Comprehension* is designed to progressively improve reading and comprehension using a variety of texts.

#### Features

- Texts in order of difficulty, including fiction, non-fiction, comic strips and poetry.
- Support for teachers with four-page units for each of the 20 texts.
- An explanation of different levels of questioning.

## Comprehension Lifters

	AGE	CODE	PRICE
Book 1	6–8	0371UK	£14.95
Book 2	7–9	0372UK	£14.95
Book 3	8–10	0373UK	£14.95
Book 4	11+	0374UK	£14.95

### High-interest activities for pupils with special needs.

*Comprehension Lifters* is written to help special needs pupils and older pupils with weak literacy skills.

#### Features

- High-interest topics to engage pupils.
- Includes activities such as cloze, literal and inferential questions, sequencing and more.
- Consistent layout with text separated by images to help ease discouraged readers.

## Thinking Skills Through Comprehension

	AGE	CODE	PRICE
Middle	8–10	0240	£14.95
Upper	10–12	0239	£14.95

### Challenging and stimulating detective-style activities.

*Thinking Skills Through Comprehension* consists of two photocopiable, high-interest comprehension resource books which develop thinking skills. Through short mystery stories designed to challenge and motivate pupils, they must respond accurately to a series of text-related questions which guide them to key information to help solve the puzzle.

#### Features

- Guides pupils to make connections and draw logical conclusions.
- Easy to use with answers, curriculum notes and teacher notes included.
- Engages pupils through high-interest topics.

## Multiple-choice Comprehension

# SOUNDS IN FOCUS™

A comprehensive whole-school spelling and language programme for all year levels.

» 36 units per level, designed for the school year

» Range of support materials, including *Sounds in Focus* Online

» Develops spelling, vocabulary, grammar and writing

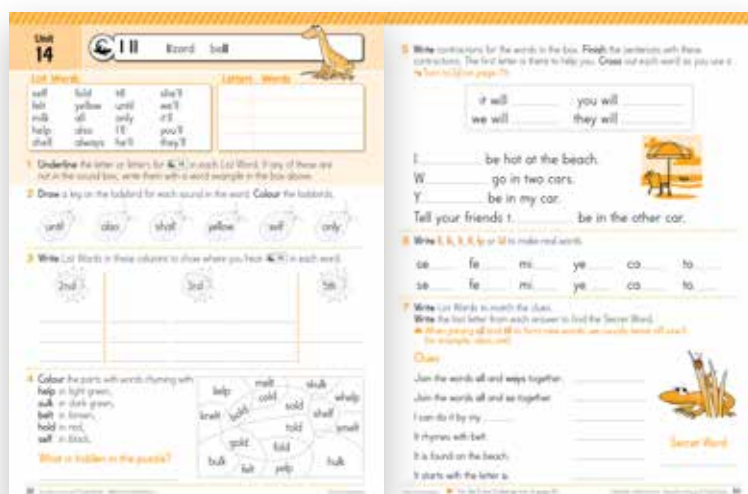

*Sounds in Focus* is a whole-school spelling programme that has been designed and developed around a phonemic awareness approach to learning to spell. National reports on the teaching of reading in the UK have promoted its inclusion in literacy programmes, and it has been shown to accelerate pupils' mastery of spelling. The programme also fosters an active, thinking approach to spelling, pushing pupils to understand how a sound can be spelled in many different ways.

## Features

- Whole-school programme ensures that phonemic awareness is developed progressively through each class year.
- For each sound, pupils are encouraged to 'Explore the Sound' by brainstorming and making lists of words that contain the sound.
- Develops much more than spelling—it builds vocabulary and also ensures that words are used in context.

Inspire your pupils to write!

» Three-box series

» Suitable for Years 1 to 6

» Encourages creativity and expression

## Are you ready to help your pupils write their next masterpiece?

These cards feature prompts for imaginative, informative and persuasive writing, encouraging pupils to express their creativity while learning how to write using a variety of styles. Suitable for ages 5 to 11+, each box contains 200 durable, colourful writing cards.

### Features

- Can be used for independent work, whole-class discussions and small group work—most cards contain questions that will generate classroom discussions.
- Use the writing prompt to model different text types, such as a narrative, recount or persuasive text, or to write a poem.
- Take it further by asking pupils to share their writing in small groups, or by asking them to take turns in writing paragraphs to create a story.

### Sample cards from Box 2

# Proofreading and Editing Skills

For a free sample, go to:  
[www.prim-ed.co.uk/proofreadingsample](http://www.prim-ed.co.uk/proofreadingsample)

Closer look at punctuation, spelling and grammar.

- » Four-book series
- » Suitable for Year 1 to Year 6
- » Includes teacher notes and answers

This series gives teachers the opportunity to provide pupils with experience in proofreading and editing written text, an important skill that will be utilised throughout their schooling and adult life. A high level of proficiency in these skills is necessary for accurate self-assessment of written work.

## Features

- Gives pupils in-depth explanations as to how to improve their English skills, and strategies to do so.
- Pupils are given direct information on the errors that have been made and how to improve their understanding on these areas for next time.
- A range of topics with information and learning patterns aligned with the age of pupils.

## Sample pages from Lower book

**Pupil proofreading and editing checklist**

Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Punctuation:**

I have included:

- capital letters for beginning sentences
- capital letters for proper nouns
- capital letters for 'I'
- full stops
- question marks
- commas in lists
- apostrophes for contractions; e.g. don't

**Spelling:**

I have:

- checked the spelling of any unknown words
- not confused words that sound the same
- added 's' or 'es' for plurals

**Grammar:**

I have included:

- different 'doing' words (verbs)
- naming words (nouns)
- interesting describing words (adjectives)
- joining words

**Writing:**

I have read through my writing to check that:

- it makes sense
- it is easy to understand

**How plants grow**

Lesson focus:

- Punctuation:**
  - Capital letters at the beginning of sentences
  - Full stops
- Spelling:**
  - Confused words - sunken, broken
  - Misspell words
- Grammar:**
  - Verbs - present tense recognition
  - Conjunctions

**Teacher information**

An explanation outlines how something works or is made.

**Answers**

A seed falls from a plant. It lands on the soft earth. The soil warms the seed. Rain falls on the seed. The seed begins to grow. Goodness from the soil travels up the root and feeds the tiny plant. A leaf shoots from the seed. The leaves soak up energy from the sun and help the plant grow. New seeds grow inside the flowers.

1. (a) Missing punctuation is in **bold** type.

2. Spelling errors are in **bold** type.

(a) sun, New

(b) Rain, leaf, seed, help

(c) It sun, 30 sun, 30 sun

3. (a) falls, lands, warms, wet, height, inside, leafy, shoots

(b) The leaves soak up energy from the sun and help the plant grow.

(c) Goodness from the soil travels up the root and feeds the tiny plant.

**How plants grow**

Read the explanation.

a seed falls from a plant it lands on the soft earth the (sunken) warms the seed. rain wets the seed a root begins to grow Goodness from the soil travels up the root and feeds the tiny plant a leaf shoots from the seed the leaves soak up energy from the sun and help the plant grow (New/New) seeds grow inside the flowers

**Editing skills**

**1 Punctuation**

(a) Find **3** missing capital letters and **2** full stops.

**2 Spelling**

(a) Circle the correct spelling where a choice of words is given.

(b) Underline then write the correct spelling of **4** misspelt words.

**3 Grammar**

A verb is a **doing** word. Present tense verbs often end with 's'. The present tense shows that something is happening **now**.

(a) Circle **3** present tense verbs in the text ending with 's'.

The word 'and' is a joining word. It joins different ideas in a sentence.

(b) In the box, copy **1** sentence from the text which has 'and' as a joining word.

(c) Circle the correct spelling.

(i) My (sunken) plays cricket.

(ii) Wear a hat in the (sunken).

(iii) His (sunken) is brave.

# Mathematics

# Teaching relevant lessons for the modern classroom

Children today live in a world permeated by mathematics. With so much of modern life involving some form of maths, the importance of young people understanding what they are learning is vital. Our maths resources are designed to consolidate pupil learning and meet a wide range of needs, providing flexibility for an individual teacher approach. Our writers underpin each exercise with key mathematical concepts and learning objectives to guide teachers in consolidating pupils' skills and deepening their understanding.

We offer a comprehensive range of engaging and hands-on mathematical primary and supplementary resources, which provide opportunities for pupils to develop written and mental strategies while completing mental maths challenges, written activities and problem-solving tasks. Implementing our resources in your classroom will motivate learning and build confidence and competence in pupils' maths skills.

Answer card

# The Maths Box

Our international version of this resource might be more suitable for you! Find out more at [www.prim-ed.co.uk/mathsboxint](http://www.prim-ed.co.uk/mathsboxint)

Each box includes a Teacher Guide.

**REVIEW** 'The Maths Box encourages resilience, independence and confidence in maths learning. We have used the resource in a variety of ways, as part of a targeted intervention, independent extension, consolidating activity or short assessment.'

**Jane Hainsworth, Teacher**

Motivate your pupils with fun, creative and challenging activities! *The Maths Box* provides practice and consolidation of skills already taught in the classroom, with opportunities to extend pupils further. Designed to be flexible, this resource allows for independent, small-group, and whole-class maths activities. This gives teachers freedom to roam the classroom and provide more tailored teaching for individual pupils. Check out how this resource can help your pupils today.

## Benefits

- Use it anytime to reinforce maths concepts and support your maths programme, supported with scope and sequence charts to map your coverage.
- Pupils can be given specific cards that are appropriate to their individual learning goals, tailored based on their strengths and weaknesses.
- Great way to motivate even the most reluctant pupils! Each card is designed to provide intellectual engagement and connects learners to the wider world.

# New Wave Mental Maths

Give pupils the best opportunity to succeed in maths!

» Six-workbook series

» Suitable for Years 2 to 6

» 200 days' worth of maths problems in each book

With over 20 years of research and continuous development, our bestselling series is still the best mathematics practice resource for the modern classroom. Visually rich and engaging, *New Wave Mental Maths* provides daily practice to increase pupils' fluency and automaticity in all three maths strands. The days-of-the-week sections make it easy to follow and works great as a warm-up for a maths lesson.

These pupil workbooks are also great tools for consolidation of mathematical concepts to develop and maintain speed of recall. Have a closer look at this workbook and find out how they can make a difference in your school today!

**REVIEW** 'New Wave Mental Maths is great! I have used a variety of levels to suit different grade levels and abilities. The days of the week sections make it a simple way to do a warm-up in a maths lesson.'

At the end of the week, Friday Reviews are so handy to keep track of their progress and to inform what we need to cover more of or extend on.'

Jill S., Teacher

**FREE** Teacher Manual available to download for class teachers adopting the New Wave Mental Maths programme.

## Features

- Daily practice of maths with a spiral learning method to consolidate and improve pupils' skill levels.
- Includes problem-solving questions each week. Designed to develop pupils' ability to make choices, interpret, formulate, and communicate solutions effectively.
- Provide consistent daily practice of taught mathematical concepts to help pupils excel.

**Bring problem-solving into your daily lessons easily!**

» Three boxes for each year level

» Suitable for Years 1 to 6

» 30 unique cards in each box

Embed mathematical problem-solving and reasoning in your lessons with the *Problem-solving Strategies and Skills* maths cards!

These beautifully-illustrated cards provide a wide variety of motivating and high-interest problem-solving activities. The problems involve one or several steps, requiring the use of a variety of strategies and skills to solve.

## Features

- Excellent resources to support problem-solving, an essential component of the mathematics curriculum.
- Strategy icons marked on each card encourage pupils to select the most effective strategy to solve the problem.
- Includes a variety of differentiated problems including word, logic and visual real-life scenarios.

# Primary Problem-solving in Mathematics

For a free sample, go to:  
[www.prim-ed.co.uk/primarypssample](http://www.prim-ed.co.uk/primarypssample)

## Develop problem-solving and mathematical thinking.

- » Seven-book series
- » Suitable for Years 1 to 6 (Extension)

- » Photocopiable worksheets plus curriculum links

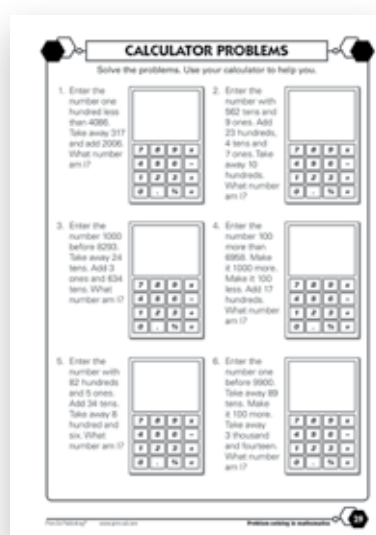

This series features a variety of fun and challenging activities that will boost your pupils' problem-solving capabilities and mathematical thinking. This series is specifically designed to be used as extension work to challenge higher-ability pupils, with activities requiring pupils to use strategies and different approaches to solve the problem.

### Features

- Features activities involving spatial visualisation and logical reasoning, establishing criteria, interpreting, analysing, and much more.
- Includes extensive background information about problem-solving skills and teacher pages to accompany each pupil page.
- Structured to focus on a problem-solving objective for each group of pupil pages.

## Stimulate and challenge young minds!

- » Can be used individually, in small groups or with the whole class
- » Suitable for Year 5, 6 and secondary
- » 300 unique cards in a box

*BrainSnack*® will work the brain and amaze the eye with 300 graded problem-solving cards. Whether it is recognising and completing patterns or finding mistakes and objects that don't belong, the appetite for more will grow. *BrainSnack*® is a resource kit that will stimulate and challenge young minds and introduce and develop a wide range of problem-solving and logic strategies.

## Features

- This resource is the complete problem-solving resource for your classroom. The cards are graded by a star system for ease of use.
- Includes a variety of activities, such as recognising and completing patterns, finding mistakes, or identifying objects that don't belong.
- Features and teaches problem-solving techniques that pupils can apply to a multitude of scenarios.

Fulfil all your mathematical needs!

» 12-book series

» Suitable for ages 5–11+

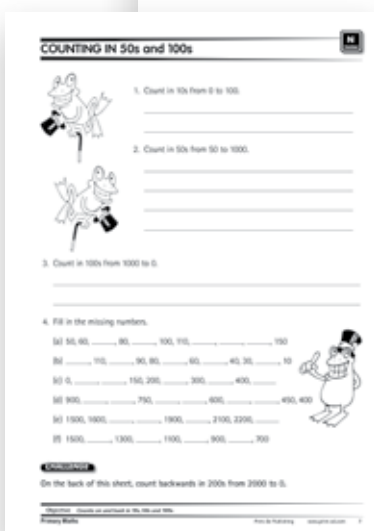

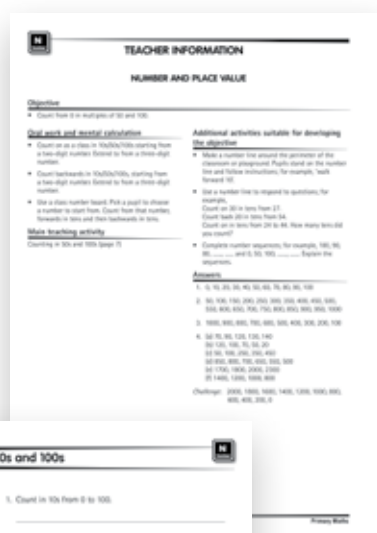

» Deliver a maths programme for your year level

*Primary Maths* is a photocopiable, six-level, year-specific series designed to address the national curriculum mathematics objectives of number, measurement and geometry. Pupil activity pages are provided in each book, along with comprehensive teacher notes, assessment checklists, and much more!

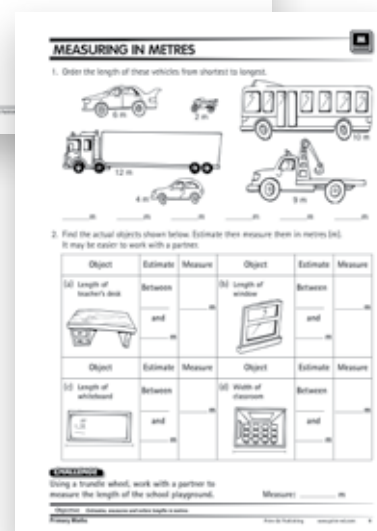

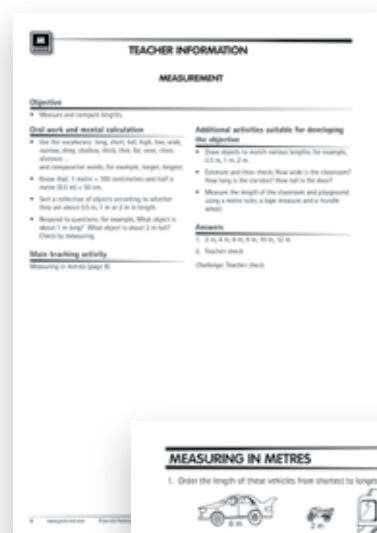

## Features

- Includes comprehensive teacher notes.
- Designed to address the curriculum strands of number, measurement and geometry.
- Features assessment pages, ideal for inclusion in pupil portfolios and for reporting purposes.

# Maths Back to Basics

## Master the basics and build a solid maths foundation.

Packed with classroom and homework activities, this series covers number, measurement, space, chance and data concepts for each year level. Help your pupils perfect the skills required for future success in mathematics.

### Features

- Ideal for teaching new concepts, consolidation, homework, assessment and revision.
- Features indicators to show the specific desired outcomes when completing the worksheet.
- Strong support for teachers with answers provided for all questions on the pupil pages.

# Maths Minutes

For a free sample, go to:  
[www.prim-ed.co.uk/mathsminutessample](http://www.prim-ed.co.uk/mathsminutessample)

## 100 minutes to practise and reinforce essential skills.

Pupils will enjoy challenging themselves as they apply their mathematical knowledge and understanding to complete a 'Maths Minute' worksheet in the fastest possible time. With 100 day-to-day activities covering all mathematics strands, this fun, challenging and adaptable resource is a handy tool for any classroom.

### Features

- Flexible and easy to use, with comprehensive teacher notes, record pages and photocopiable pupil reference materials, integrate this resource into any primary mental maths programme.
- These easy-to-follow activities promote the ongoing learning of essential maths concepts and skills through practice and reinforcement.
- Designed to be implemented in numerical order from 1-100, the activities in *Maths Minutes* are developmental through each book and throughout the series.

	AGE	CODE	PRICE
Book 1	5-6	6077UK	£17.95
Book 2	6-7	6078UK	£17.95
Book 3	7-8	6079UK	£17.95

Book 6	10-11	6082UK	£17.95

## Times Table Challenge

## Three-minute tasks from easy to extreme!

Highly motivational and fun. Instead of doing repetitive chants and playing games in class, engage and challenge the whole class with *Times Table Challenge*!

### Features

- Can be readily incorporated into your weekly programme.
- Requires very little preparation to get started.
- Pages contain double copies of the same focus to save photocopying.

AGE	CODE	PRICE
8-11+	0077	£14.95

## Mental Maths Speed Tests

	AGE	CODE	PRICE
Book 1	7–11	0078UK	£14.95
Book 2	7–11	0079UK	£14.95

### Can your maths skills beat the clock?

Add an exciting challenge to the usual boring times table tests with *Mental Maths Speed Tests*.

#### Features

- Includes a blank speed test sheet to enable teachers to cater for special needs pupils.
- Can be photocopied and made into booklets to last a term.
- Bonus fun facts and activities for early finishers.

## Maths Games

	AGE	CODE	PRICE
Book 1	5–7	0614UK	£17.95
Book 2	7–9	0615UK	£17.95
Book 3	9–11+	0616UK	£17.95

### Motivate pupils through maths games.

*Maths Games* provides teachers with game boards that assist pupils' learning of mathematical concepts and language.

#### Features

- Emphasises mathematical language to introduce, reinforce and consolidate concepts.
- Encourages cooperative learning through the group board game options.
- Blank game boards allow teachers to customise their own games to suit the class.

## Follow Me – Loop Card Games – Maths

	AGE	CODE	PRICE
Lower	5–7	6073	£17.95
Middle	7–9	6074	£17.95
Upper	9–11+	6075	£17.95

### Develop and reinforce active listening skills.

This three-book series is designed to reinforce basic mathematical skills using auditory discrimination as the major focus.

#### Features

- Maintains pupil involvement through the active listening enrichment copymaster.
- Each level has games addressing skills suitable for the age.
- Simple-to-prepare activities, blank templates (to produce your own games) and clear and concise answer pages.

## Essential Facts and Tables

AGE	CODE	PRICE
7–14	1091	£2.99

### All the essential information in one handy book.

An invaluable resource book for pupils and teachers that features symbols, tables, formulas, definitions and spelling rules.

#### Features

- An essential resource that's great for teachers and pupils to use daily.
- With a clear layout and careful indexing, information is easy to find for both teachers and pupils.
- Includes symbols, multiplication tables, formulas, definitions, spelling rules and general geographical knowledge.

#### ALSO AVAILABLE

# Science and Technology

# Reach for the stars through science

Our planet is astonishingly complex and contains a plethora of natural and constructed features, from amazing life cycles and evolutionary adaptations of different species, to human inventions which have changed the way we live. Engaging children with science couldn't be more important and, with a smorgasbord of examples, our science resources are a must-have for teachers.

Preparing pupils for the future, each captivating resource will give them a thirst for scientific knowledge and understanding through hands-on and interactive activities. Our resources nurture children's curiosity and help them develop the skills they need to answer their questions, allowing for deeper learning opportunities. Engaging activities and easy-to-use lesson plans enable teachers to integrate science into their curriculum with ease, providing the content necessary to satisfy pupils' science education needs.

# STEM Projects

For a free sample, go to:  
[www.prim-ed.co.uk/stemprojectsample](http://www.prim-ed.co.uk/stemprojectsample)

Help your pupils become innovative problem-solvers!

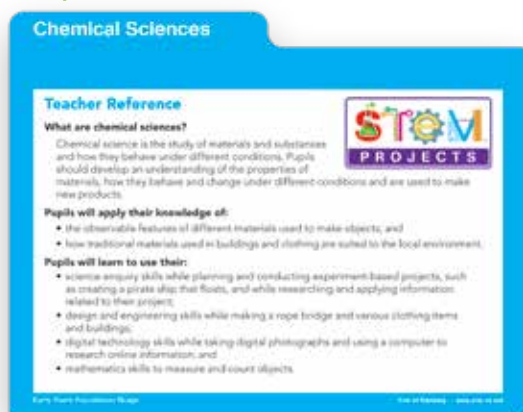

» Seven-box series

» Suitable for EYFS to Year 6

» 28 unique projects in each box

STEM Projects provides opportunities for pupils to develop science knowledge and skills, design and technology skills, mathematics skills and general capabilities while completing short- or long-term projects, designed to encourage creative and sustainable thinking. It encourages pupils to follow a consistent design process while completing the projects, including finding out information, planning and designing, creating, evaluating and communicating.

	AGE	CODE	PRICE
EYFS	4-5	6177UK	£39.95
Year 1	5-6	6178UK	£39.95
Year 2	6-7	6179UK	£39.95
Year 3	7-8	6180UK	£39.95
Year 4	8-9	6181UK	£39.95
Year 5	9-10	6182UK	£39.95
Year 6	10-11	6183UK	£39.95

**REVIEW** *'The layout of the cards was easy to follow. The tasks were fun and the pupils enjoyed the experience of using them. The resources needed for the tasks were affordable and easy to find around school so there was no additional cost which makes a difference when starting something new.'*

**M. McMahon, Primary School Teacher**

## Benefits

- The projects allow pupils to work in small teams, using effective communication and collaboration skills, to plan, design, create and evaluate a solution to a given task.
- When satisfied with their solutions, pupils showcase and discuss their design, explaining how science was used throughout the project.
- The cards are designed to provide little interference to the pupils' creativity, allowing them to create their own paths.

## Sample card from Box 4

## REVIEW

*'This is an exciting resource which spans from EYFS to UKS2. Each box is full of 28 STEM projects split into biological, chemical, environmental and physical sciences. The cards are clearly organised so the resources are easily visible and are readily accessible to teachers. Key learning intentions are also signposted for teachers so they are clear which elements of the National Curriculum they are covering.'*

*'These are open ended projects that set challenges and allow group work, paired work, discussion, problem solving and all the features of great practical work, across the whole school from designing and making a mud hut in EYFS to designing and making a waterwheel that makes at least two full turns, which brings in use of computing too.'*

**Kulvinder Kaur Johal, Teach Primary STEM category judge**

# Science: A STEM Approach

**REVIEW** 'Another excellent approach. The lesson plans are detailed and cover both skills and content aspects of the curriculum. Easy to integrate into our planning and made assessing the children's learning easier and much clearer.'

Alex Gilber, Teacher

## Features

- Each book is split into four units, which are organised by sub-strand—Biological Sciences, Chemical Sciences, Environmental Sciences and Physical Sciences.
- Each unit is designed to be easy to follow for the teacher, with a term overview at the start of each unit and comprehensive background information.
- Each project links the science knowledge and skills learnt with aspects of engineering, design and technology, information technology and mathematics.

# Design & Technology

Bring your pupils into the exciting world of Design & Technology!

» Six-boxes and six-books series

» Suitable for ages 6–12

» Hands-on projects to engage your pupils

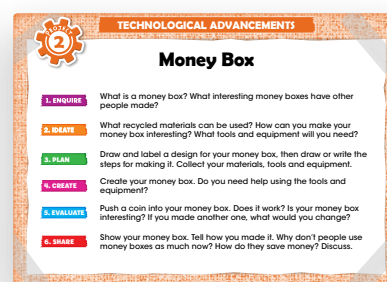

Our project-based learning through *Design & Technology* series is designed to help teach pupils the content, skills and processes of the design and technology subject area. Through hands-on, real-world projects, four themes are covered – food, cooking and nutrition; clothing and textiles; building and construction; and technological advancements.

As they work on the project, the pupils are guided through each step through the provision of guiding questions and points to consider. Get your pupils engaged and develop their process and production skills with these amazing resources!

## Sample cards from Box 1

## Science

For a free sample, go to:  
[www.prim-ed.co.uk/sciencesample](http://www.prim-ed.co.uk/sciencesample)

Discover how science has changed the way we live.

- » Six-book series
- » Suitable for Years 1 to 6
- » Each unit consists of a teacher page and three pupil pages

With a wide variety of experiments, investigations and other tasks, *Science* is the must-have, one-stop resource for teachers. Through hands-on and interactive activities, designed to promote curiosity and interest in science, each book in the series will captivate pupils and give them a thirst for scientific knowledge and understanding..

### Features

- Easy to follow structure, with plenty of guidance for teachers to execute an engaging science lesson.
- Includes curriculum links, fully mapped out for your coverage reference.
- Each unit includes a science literary text to explain the concepts, comprehension questions to gauge understanding, and a hands-on activity to engage pupils.

### Sample pages from Book 3

**What are living things? -- 2**

Use the text on page 3 to complete the following.

- Circle what most living things can do.
  - (a) grow (b) run on batteries (c) have offspring
  - (d) use food and water (e) breathe air
- Look at the pictures below. Decide which things are living. Write the name of each living thing in the box.
- Living things change. Write two ways a plant can change.
- Why might some people think a plant is not a living thing?
- Write the names of two living things in the picture on page 3 (other than the children, rabbits and tree) below.

**How do animals change as they grow? -- 1**

Read the text.

Most animals have two parents. Some animals start their lives growing inside the bodies of their mothers. They are born alive and usually look like their parents. Cows, dogs, cats, horses, lions and whales are born this way.

Some animal mothers lay eggs. Their babies grow inside the egg and later hatch out. Some animals, like turtles, snakes and lizards, look like their parents. Others, like chickens and seahorses, change as they grow to look more like their parents.

Some animals go through big changes in the way they look. These animals usually hatch from eggs. Frogs and many insects (such as flies and butterflies) change the way they look a number of times before finally looking like their parents.

Animals do different things as they grow. Tiger cubs are playful, but they become fierce, dangerous hunters. Puppies drink milk when they are born but eat meat when they get older. Some chicks are looked after by their mothers but learn to take care of themselves.

No matter how animals look and act when they are born, they all change and grow to become like one or both of their parents. For some animals, like flies, this takes just a few weeks. For others, this takes many years.

**What will it look like?**

Use the internet or books to help you find out what kind of animals these babies are, and what they will look like as adults.

- Colour each baby animal in the chart correctly.
- Write what each parent is called, then draw and colour one parent for each animal.
- Write some changes each animal will go through, and about how long these changes will take, as it grows and changes into an adult.
- Fill in the last section with an animal of your choice.

Baby	Adult/Parent	What changes? How long will the changes take?

**Teachers notes**

**Book 3: Living things**

**Page 1**

The purpose of this page is to introduce the concept of living things. The page provides the following information:

- A definition of living things: "Living things are animals and plants that can grow, move, and respond to their environment."
- A list of examples of living things: "Animals: cats, dogs, birds, fish, insects. Plants: trees, flowers, grass."
- A list of examples of non-living things: "Rocks, water, air, fire, light."
- A list of characteristics of living things: "They grow, move, and respond to their environment."

**Page 2**

The purpose of this page is to provide a list of questions for students to answer. The page provides the following information:

- A list of questions: "What are living things? How do they change? What do they need to survive?"
- A list of activities: "Draw a living thing. Write a poem about a living thing. Make a list of living things you see every day."

# Humanities

# Open the door to the world for your pupils

We live in a fascinating and intricate world full of wonder and intrigue. Explore our wide range of humanities resources and help your pupils gain a deeper understanding of the past, present and future world around them. Including history, geography and environmental studies, we have everything you need to cover the curriculum objectives for history and geography.

With engaging topics and activities to suit all learning needs, pupils will be immersed in humanities activities linked to the national curriculum, developing their knowledge and understanding along with their enquiry skills. Pupils will gain an appreciation for the learning area, covering topics which have helped shape our nation and world into what it is today.

# Primary Geography

For a free sample, go to:  
[www.prim-ed.co.uk/primarygeographysample](http://www.prim-ed.co.uk/primarygeographysample)

## Explore the world through geography!

- » Six-book series
- » Suitable for Years 1 to 6

- » Downloadable assessment tool for each year level

*Primary Geography* is a comprehensive, six-book series to complement the teaching of human and physical geography through a range of high-interest themes.

### Features

- Local, national and global geographical activities covered through engaging activities.
- Each four-page unit has three themed activity sheets accompanied by a page of teacher notes.
- Teacher notes cover the objectives, key questions, curriculum links, vocabulary, background information, resources and suggestions for additional activities.

### Sample pages from Year 1

	AGE	CODE	PRICE
Year 1	5-6	6681UK	£17.95

## Primary PSHE

For a free sample, go to:  
[www.prim-ed.co.uk/primarypshe/sample](http://www.prim-ed.co.uk/primarypshe/sample)

Give your pupils the best health education.

» Seven-book series

» Suitable for EYFS to Year 6

» 2020 curriculum linked

Primary PSHE looks at how pupils can keep physically and mentally healthy. Topics such as feelings, taking risks, food and nutrition, and increased physical activity, as well as many others, provide pupils with a comprehensive and well-rounded resource, thus helping pupils to be their best, healthiest selves.

### Features

- Written in a procedural format whereby lesson plans are continuous through the book; and are structured to make learning as seamless as possible.
- Activities suitable for relationships education and physical health and mental wellbeing curriculum objectives.
- A compilation of lesson plans; copymasters; and teacher resources such as cards for games, stories, poems and scenarios.

### Sample pages from Book D

#### Strengthen Identities – 1

**Bethany Hamilton**

Bethany Hamilton loved to surf. Because she lived in Hawaii, with its beautiful beaches, it was easy to indulge in her great love. Before she was a teenager, Bethany was winning important surfing competitions.

One day, when Bethany was 13, she was surfing with friends. As she lay on her board with her left arm dangling in the water, a 14-foot tiger shark attacked her and severed her arm just below the shoulder.

Three weeks after being attacked, Bethany was back in the water, determined to continue surfing. This was not so easy. She had to adapt a custom-made board, making it longer and thicker, and adding a handle for her right hand. She increased her kick to make up for not being able to use her left arm.

The following year, Bethany entered her first competition since the accident. From that time, she has been consistently winning competitions.

Today, she uses a standard surfboard to compete.

Her inspirational story, showing the challenges she faced, was made into a film called *Soul Surfer*.

**Steven Bradbury**

Steven Bradbury was a speed skater. In 1994, he was part of the four-man, short-track relay team that won Australia's first Winter Olympics medal. After that, he had some success, but he was involved in numerous crashes.

That same year, another skater's blade sliced through Steven's right thigh, cutting four muscles. He survived and received over 100 stitches to his thigh. It took 18 months to regain his strength.

Four years later, Steven broke his neck while training and was told he would never skate again. He was determined to prove his worth and overcome his disastrous record of crashes.

In the 2002 Winter Olympics, he knew he wasn't of the oldest. Riga and if his opponent to take a medal. It happened. The leg with arms raised—It medal!

#### Strengthen Identities – 2

Everybody fails sometimes. Everybody faces new challenges from time to time.

1. There are many ways of dealing with failure and new challenges. From the list below, tick the ways you think are positive.

- Ask for help only after 'having a go' first.
- Keep trying—be persistent.
- Use self-talk—say positive things to yourself.
- Be confident—think that you can do it.
- Ask someone to show you how it's done.
- Try a few times, then if it doesn't work, give up.

Thinking of positive messages to 'tell' yourself is a good thing to do when something isn't working out the way you hoped.

2. Imagine you had a 20-word spelling test and you really wanted to get every word correct, but you made two errors. What are some positive things you could tell yourself? Add ideas to the list.

- I did my best and 18/20 is a very good mark.
- I'll practise harder to learn the words for the next test. I might get a better mark.

#### Strengthen Identities – 3

Trying a new activity or challenge can be exciting, but it can also make us feel nervous, in case we are not successful. However, trying new things is important—it can make us feel good about ourselves and make us stronger.

1. Think of a new activity or challenge you would like to try. It might be learning a new sporting skill or game, doing more healthy, learning a magic trick, getting over fear of the dark or spiders, or trying a new hobby.

Complete the table about your activity/challenge.

My activity or challenge:
Why do I want to try it? What could I learn?
My feelings about trying it are:
If I don't have a go at this activity, I might ...

2. List up to five steps to take towards achieving this activity/challenge. Write each step in a different colour. For each step, write a reward to give yourself to help you on your way.

Step 1	Step 2	Step 3
START		
Step 4	Step 5	
SUCCESS		

#### Strengthen Identities

**The Lesson Introduction**

- As a class, read the information on page 7 about two different sportspeople.
- Teachers may select pupils to read particular paragraphs aloud.
- Discuss the information about each sportsperson, identifying the challenges, failures and successes each faces.

**Development**

- In small groups, pupils use paper or wipe-off boards to list some qualities that enabled each sportsman to achieve success. As persistence is common to achieve success, is persistence one of the qualities? Is it important? Why?
- Highlight complete page to identify ways to respond positively to new challenges or to respond positively to new challenges or to respond positively to new challenges or to respond positively to new challenges.
- As a class, discuss the positive ways of dealing with failure and new challenges as listed in the 'Keep smiling! Don't give up! Way to go!' poster.
- Ask pupils to read examples of positive self-talk they used to answer question 2 on page 6. Which ones are used the most?

**Conclusion**

- Challenge pupils to make up one sentence 'challenge' and 'failure'.

**Differentiation**

In this process too difficult, pupils may compose two or three sentences, or work in pairs.

**Going Further**

- Pupils complete page 9 about undertaking a new activity or challenge.
- Divide the class into small groups to complete one of the challenges from chapter 10 (page 10).
- After completing the activity, pupils share information about how they worked together and overcome challenges as a diverse group.

# Primary Health and Values

	AGE	CODE	PRICE
Book A	5-6	0574	£17.95
Book B	6-7	0575	£17.95
Book C	7-8	0576	£17.95
Book D	8-9	0577	£17.95
Book E	9-10	0578	£17.95
Book F	10-11	0579	£17.95
Book G	11+	0580	£17.95

## Promote healthy and active lifestyles.

*Primary Health and Values* provides information on health content through offering collaborative learning and discussion. These lessons look to promote commitment to healthy and active lifestyles.

### Features

- Worksheet activities promote discussions on vital health and self management issues.
- Explores character traits and values in detail with in depth analysis translated for pupils.
- Detailed teacher notes and background information for each activity they complete.

## Teaching Values Toolkit

	AGE	CODE	PRICE
Book A	5-6	2773UK	£19.95
Book B	7-8	2774UK	£19.95
Book C	9-10	2775UK	£19.95
Book D	10-11	2776UK	£19.95
Book E	11+	2777UK	£19.95

## Lessons for life.

Resources to help teachers teach values education. Based on 'The six kinds of best' concept by David Koutsoukis, the books contain a series of activities to make learning values education fun.

### Features

- Reward certificates relevant to each section.
- Suitable for a variety of pupil learning styles and intelligences.
- Self-reflection checklists.

## Help pupils build self-worth, confidence and resilience.

*Self-esteem* is a resource for investigating personal and social issues faced by children. Activity topics have been carefully selected to address issues specific to the age group, to help build self-worth and resilience in challenging situations.

### Features

- Teaches the skills fundamental to creating a safe, happy learning environment.
- Pupils relate imaginary characters' experiences to their own life and assess the appropriateness and effectiveness of their own behaviour.
- Suitable for whole-class instruction or for use with individuals or small groups with particular needs.

# Cross-curricular

# Learn from Home

For a free sample, go to:  
[www.prim-ed.co.uk/learnfromhome](http://www.prim-ed.co.uk/learnfromhome)

Make learning from home easy, fun and productive.

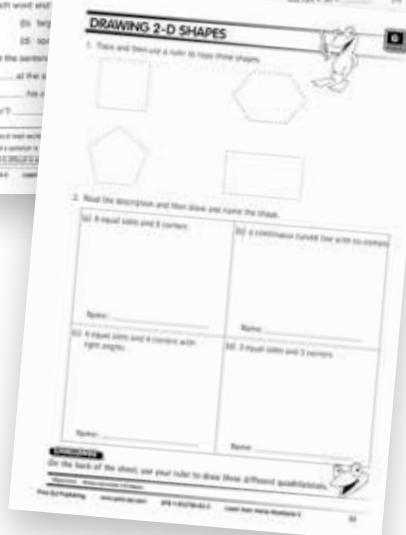

- » Six-book series
- » Suitable for ages 5–11
- » Avoid any gaps in learning and provide consistent practice across key learning areas.

Designed to be easily accessible and great to use both from home or in the classroom, these workbooks will help your child revise essential schoolwork and reinforce taught concepts. Great for independent learning, your pupil will be presented with English, mathematics and science activities that are curriculum aligned, ensuring a consistent practice across key learning areas. Each workbook contains enough work to cover a minimum of four weeks, with a subject area allocated for each week.

## Features

- Each workbook goes through all key English areas: reading comprehension, grammar, writing and editing to ensure that your pupil doesn't experience any gaps in learning.
- Mathematics section provides consistent practice that will reinforce and consolidate your child's current mathematical knowledge.
- Topics have been selected from different parts of the science curriculum, with some simple experiments included.

## Sample pages from Year 3

	AGE	CODE	PRICE
Workbook 1	5–6	8488	£3.99
Workbook 2	6–7	8489	£3.99
Workbook 3	7–8	8490	£3.99

Workbook 6	10–11	8493	£3.99

# Higher-order Thinking Skills

Help pupils develop the skills they need to succeed!

» Six-book series

» Suitable for Years 1 to 6

» Easy to use and integrate with your existing programme

How do you fit essential critical-thinking skills development into an already-packed schedule? *Higher-order Thinking Skills* is the answer! Through a range of engaging and challenging activities designed to test and strengthen problem-solving skills, this series helps pupils make deeper connections by integrating their learning across key curriculum areas.

## Features

- Arranged in a week-by-week structure, ensuring that English, science and maths are covered each week.
- Focus on a behavioural verb such as analyse, predict or design with each activity, while integrating into different curriculum areas.
- Provide pupils with meaningful practice that they can apply across subject areas and in life.

## Sample pages from Upper

**REVIEW** 'I enjoyed how these activities require students to apply knowledge, logic and skills in literacy based activities that also mix other curriculum areas (science, Indigenous perspectives, maths and geography) and disciplines. The creativity and mixture of the types of challenges available make it more stimulating and interesting for students. The definitions of behavioural verbs provided at the start and how each activity is organised into a certain skill I found were both very useful elements.'

Cindy Tran, Teacher

# Early Finishers

## Independent activities to reinforce basic skills.

» Seven-book series

» Suitable for ages 5-11+

» Reinforce basic skills and provide additional activities

This series contains a range of high-interest, creative and challenging activities for early finishers. All activities relate to the curriculum in English, mathematics and art, and can be completed independently of the teacher. These are great not just for early finishers but also for class activities or homework.

### Features

- Wide range of reproducible, ready-to-use puzzles and brain-teasers to motivate pupils, keeping them actively and constructively engaged.
- Engage pupils with activities that focus on words, numbers, critical thinking, following directions, looking at pictures and getting creative.
- Easy to use and flexible, this resource is great for individual, paired or small group work.

### Sample pages from Book A

**Rhyming words - 1**

1. (a) Colour orange all the words that rhyme with 'cat'.  
(b) Colour all other words blue.

**Changing words - 1**

1. Change the first word to the last word by changing one letter at a time. Use the picture clues to help you.  
(a) Change dog to cat.  
(b) Change pig to hen.  
(c) Change rat to bug.

**Measure the distance**

1. Guess the length of each path to the bear's cave. Write your guess on the chart. Measure to check your guess.

**Teacher notes**

Early finishers: independent activities to reinforce basic skills is a series of books containing a range of high-interest, creative and challenging activities to satisfy the demands of the early finisher. All activities relate to the primary school curriculum in English, mathematics and art, and can be completed independently of the teacher.

The activities include a variety of puzzles and brain-teasers to motivate pupils, keeping them actively engaged as they practise a range of skills.

While the main target audience for the books is the early finisher, the activities can also be used:

- in planning whole-class or group activities
- for homework assignments
- as revision for a particular skill
- as meaningful 'between-lessons' activities.

Each book in the series is divided into six sections, activities have been placed in the sections which best fit their main focus.

Examples of activities in each section are:

**Looking at words:**  
making new words from the letters in a given word or phrase; understanding words, words and unexplained puzzles to develop vocabulary; identifying anagrams, acronyms and idioms.

**Working with numbers:**  
practising number operations with dot-to-dot, colour by numbers, mazes and pathways; determining place value by making and expanding numbers.

**Critical thinking:**  
recognising the odd one out; determining correct categories; identifying the main idea; sorting using clues to solve problems.

**Following directions:**  
locating routes and places on a map; creating pictures by plotting coordinates; following steps to draw pictures; describing messages.

**Looking at pictures:**  
finding matching pairs; completing symmetrical pictures; memorising features of a picture; missing a picture.

**Getting creative:**  
suggesting different uses for everyday objects; designing covers, CD covers, items of clothing; creating new products; writing and illustrating cartoon strips and different types of poetry.

# The Relief Teacher Toolkit

## Cross-curricular activities for the relief teacher.

» Four-book series

» Suitable for ages 5–11+

» Easy to plan and organise relief lessons

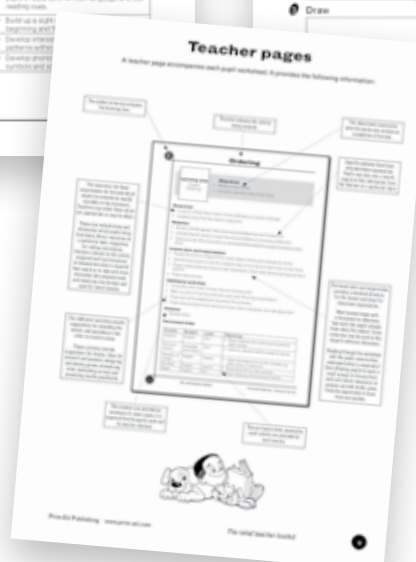

The Relief Teacher Toolkit is a four-book series that has been designed to equip the relief teacher with an extensive range of classroom activities covering a variety of learning areas of the curriculum. Activities cover a variety of curriculum areas – English, maths, science, history, geography, health, values and art.

### Features

- Each worksheet can stand alone as a single lesson or be extended by including additional activities which expand the topic into other curriculum areas.
- Includes a teacher page for each worksheet, with learning areas covered, objectives, specific resources required for the activities and more.
- Engage pupils with a range of activities to assist in the development of skills across a variety of learning areas.

### Sample pages from Lower

	AGE	CODE	PRICE
Book 1	5–7	0756	£17.95
Book 2	7–9	0757	£17.95
Book 3	8–10	0758	£17.95
Book 4	10–12	0759	£17.95

# Early Themes

## Bring popular themes to your classroom.

» Four-book series

» Suitable for lower primary

» Bring themes to life with fun and engaging activities

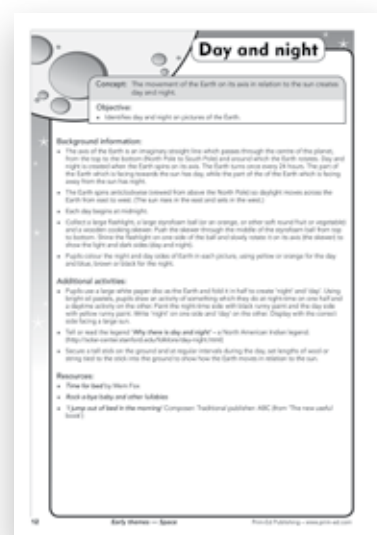

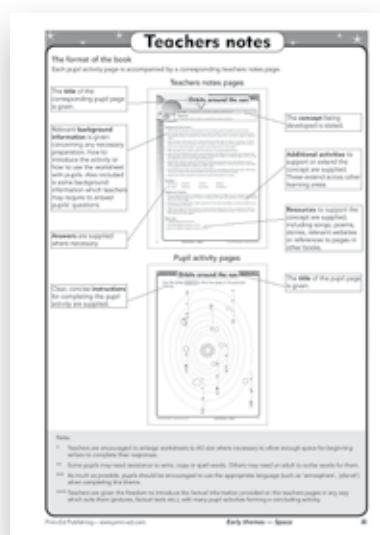

The *Early Themes* series is an engaging set of copymasters that cover popular, high-interest topics. Designed and written to help lower primary pupils, each book extends across many learning areas, such as literacy, mathematics, science and much more. Early learners will be motivated to absorb new information through fun activities.

### Features

- Utilise simple and clear worksheets, containing maximum visual input and requiring minimal reading and writing from pupils.
- Plan your lessons easily with activity objectives, background information, suggestions for additional activities, and answers accompanying each activity.
- Extend your lesson even further with a list of resources to support each pupil page including stories, songs, poems and websites.

### Sample pages from Space

## Library skills activities.

*Enjoying the Library* is a seven-book series that provides a thorough library programme. With a focus on 'hands-on' experiences, this series gives pupils the opportunity to explore the resources available in the library.

### Features

- Flexible to use, will suit any library, regardless of the number of resources available for the pupils.
- Progressively teaches pupils to become independent library users, and will work with pupils of varying abilities.
- Designed to be used by both classroom teachers and library specialists.

## Sample page from Book C

## Dictionary Skills

	AGE	CODE	PRICE
Lower	5-7	0168UK	£17.95
Middle	7-9	0169UK	£17.95
Upper	9-11+	0160UK	£17.95

### Help your pupils use dictionaries effectively.

*Dictionary Skills* is a series of three copymasters that takes young learners through the skills necessary to become proficient when using a dictionary. The activities develop a wide range of skills.

### Features

- Develop essential dictionary-usage skills through whole-class, group and individual activities.
- Introduces a wide range of skills, such as alphabetical order, guide words, definitions, proofreading and more.
- With answers provided, this series also provides extension activities for fast finishers.

## Multiple Intelligences

**ALSO AVAILABLE**  
*Multiple Intelligences*  
Posters

	AGE	CODE	PRICE
Lower	5-7	0747	£17.95
Middle	7-9	0748	£17.95
